

BOTBALL GRADE STRUCTURE

Engineering Systems

2006

Following is the grading structure for each class member. Although some members are responsible for individual performances (e.g., presentation), everyone is expected to contribute to the performance. And everyone will be graded on the performance of that component.

All students must attend either the Botball weekend kickoff (one shift equals 4 hours) or the day of the tournament. Tournament attendance will not be done in shifts -- everyone attending that day is expected to be there until the Marshall teams are finished. The tournament is why we are doing the project. Students not attending either a kickoff or the complete tournament must write a paper as noted.
